

## **EC DECLARATION OF CONFORMITY**

This declaration of conformity concerns our CIRCULAR SERIES of multi-pin connectors. Due to the absence of any specified harmonized standards relating to our circular multi-pin connectors, we are drawing up this declaration of conformity in accordance with the harmonized standard EN-60309-Part I, in clauses of application, as well as EN-60529 (IP67) and NF-C-20-711.

Pursuant to article 8 of the European Commission Directive 73/23/EEC of 19<sup>th</sup> February 1973, and in view of the fact that no specific harmonized standard exists for this type of connector, it is a sufficient and necessary condition that our connectors satisfy the requirements for safety in article 2 of the aforementioned Directive, in order to affix **CE** marking and thereby be entitled to free circulation throughout the European Economic Area. The installation and maintenance of the circular connectors should be correct and their use correspond to the purpose for which they were designed.

By virtue of article 10 of the European Commission Directive 73/23/EEC, we hereby issue this Declaration of Conformity for our multi-pin connectors adequately described and referenced in the catalogue supplied for such purposes, which also contains instructions for their use.
